

M A N A G E M E N T

God is good!! We want to thank you folks and the Executive Board of Faith Center for expressing confidence in us to head up the management team for this organization. We feel that God himself began this work and has blessed the efforts of the past. In the knowledge that "with God" all things are possible, we look with anxious anticipation to the year ahead.

Realizing that we alone cannot accomplish all that must be done in the various departments, God has supplied us with a team of men who are dedicated to the task of spreading the gospel, regardless of personal sacrifice. God Himself is our team "Captain".

Following are some reports from members of the "management team".

Sincerely in Christ's service,

Ray Wilson, Executive Director
Bill Meenk, Assistant Executive Director

My year end report last year ended with this paragraph--"There have been so many eventful happenings at KHOF Radio and TV this past year, that to review each one would require more space and time than this year end report could allow. ." and all I can say is that 1974 has been an echo of that paragraph.

I believe we at KHOF Radio, TV, and Faith Center have had the opportunity to live through a year of miracles and have not yet fully realized it.

To go into detail would be impossible--to say that God takes care of His own would not begin to tell of His protection and of His great love.

I will not burden you with numbers and facts, but ask you to rejoice with me and the staff in praising God for His mercy and grace.

1975 will be the year to come alive in Jesus, a year to witness as never before for our Lord. I cannot call this a year end report. .I feel this last year was a beginning. .a new miraculous beginning.

Paul Calentine
